WORK EXPERIENCE

08/07/2024 – CURRENT Istanbul, Turkey

FRONTEND DEVELOPER INVEON

I perform front-end coding for web designs provided by the design team. This involves translating visual designs into functional and interactive web pages.

I specialize in creating captivating and user-friendly landing pages that help improve user engagement and conversions. This involves crafting responsive and visually appealing layouts to achieve business objectives.

I actively participate in identifying and resolving front-end issues and bugs to ensure a smooth and error-free user experience. This includes troubleshooting cross-browser compatibility issues.

I conduct thorough UI/UX tests to evaluate the functionality, performance, and responsiveness of web applications. This involves user interface testing, usability testing, and ensuring consistent user experiences.

Technologies that i am using: **HTML, CSS, SCSS, Bootstrap, JavaScript, jQuery, Razor Template.**

24/04/2023 – 24/06/2024 İstanbul, Turkey

KARACA ZÜCCACİYE TİCARET VE SANAYİ A.Ş. FRONT-END DEVELOPER

Karaca is a Turkish-based company specializing in home textiles and kitchenware. The company is renowned for its wide range of products, including bedspreads, bed linen sets, towels, kitchen utensils, and other home goods.

As a Front End Developer at Karaca, I am responsible for translating design concepts from Figma and Adobe XD into responsive web interfaces. My key responsibilities and tasks include:

I perform front-end coding for web designs provided by the design team. This involves translating visual designs into functional and interactive web pages.

I am actively engaged in enhancing my **React** skills through personal projects

15/06/2022 – 24/04/2023 Istanbul, Turkey

JR. FULL-STACK DEVELOPER EDVIDO

I am working as a Jr. Full-Stack Developer at Edvido, Edvido is a Scale-Up company that has received investment and was founded as an ITU Cekirdek startup. The company brings together brands, agencies, and software firms.

I mostly take on Front-End Development tasks, but also take on Back-End Development tasks when needed. In my projects, I usually use **Vue.js** and **.Net Core**.

With **Vue.js**, I create user interfaces on the front-end, and with **.Net Core**, I manage server-side operations on the back-end. Along with these technologies, I also work with various database systems and **RESTful APIs**.

27/07/2021 – 09/12/2021 Istanbul, Turkey
JR. BACK-END DEVELOPER WESTEROPS

Westerops is a software company that offers comprehensive Web/Mobile Application development services to its clients, ranging from project management to UI/UX design.

While working at Westerops, I have used Django in my projects. In addition to this technology, I have also worked with various tools such as database systems and RESTful APIs.

03/04/2021 – 27/06/2021 İstanbul, Turkey
BACK-END DEVELOPER INTERN WESTEROPS

I recieved Back-End software development courses. After that, i worked as a Back-End Developer. I learned **Python, Docker, Django** basics there and i had been contribute to my team. I had been a continuous eager to learn new tools in order to catch up with the latest technology and deliver the highest quality.

17/04/2016 – CURRENT Istanbul, Turkey
FOOTBALL REFEREE TURKISH FOOTBALL FEDERATION

I am currently a football referee in Istanbul.
